

ELGIN 2010 COMMITTEE - Minutes
Elgin School District Office - Mar 18, 1996 - 7:00 PM

Attendance: Constance Albrecht of RDI, Kevin Cooper, Joe Garlitz, Ray & Vanetta McVey, Mary Rose Nichols, Maureen Smolkowski, Sam Wilsey, Jessie McDonald.

Agenda: Ambulance Fund Trail Ride, Bricks, Toxic Trash, Share with Union, update on RDI.

Vanetta reported Diane Eckstein, Darlene Barker, and another lady are organizing an approx. 5 mile ride out Coburn Canyon to benefit the Ambulance Fund. It's to be held Sunday MAY 19, 1:30 to 5:30 PM with a \$10 fee to ride, with awards and prizes. A Sloppy Joe Feed for riders and public will then be held at the Community Center from 6-8 PM. All proceeds go to the Ambulance Fund. / Vanetta also said we need to order bricks this week, in order to have them in by Riverfest on June 15. Ethel will spell check names before Kevin orders. / Mary Rose reported a Toxic Trash (old paint, oil, etc) turnin on Sunday April 21 from 12 to 4 PM. / Joe said we need a concrete agreement with specified hours and duties regarding a share person withh Union and NEOED. There is some concern about really getting much help when NEOED will have first priority on time unless clearly defined by contract. /

Constance Albrecht updated us on RDI funds. We identified building the Hunaha Park as our next objective. We need to get our application in between Apr 1st and June 3rd. We need: (1) a project coordinator/s (2) Work group or committee (3) Define phases of the park (4) Learn how to get \$'s and do it (5) Line up \$'s commitments (6) Get project manager & oversight committee (7) Start & complete planning (8) Construction. Our next steps are: Collect existing information, more soil tests, flood issues, wetlands & endangered species survey, Land survey - maps, topographical material, environmental assessment, alternative designs for both phases, engineering design and landscape design. Our options for all this material are: hire NEOED, hire contractor, do it your self with technical assistance from sources such as USFS, MRCO, RDI, Grande Ronde Watershed, U of O - RARE plus potential contractors. We wanted help with actually filling out the grant application, so Constance agreed to meet with us at St. Mary's Fellowship Hall on Wed, Mar 20, at 3 PM to pilot us through an application.

Meeting adjourned.

Respectfully submitted, Jessie M. McDonald, Sec'y

Jessie
